🔟 Day 10: Loops (Nested Loop)

Types of Loops

There are 3 types of loops in Python:

- For
- While
- Nested

Nested Loop

Loops inside loop

The "inner loop" will be executed one time for each iteration of the "outer loop":

```python
adj = ["red", "big", "tasty"]
fruits = ["apple", "banana", "cherry"]

for i in adj:
    for j in fruits:
        print(i, j)
```
